HTML Session Plan Week 5

This week you could start working on a bigger site such as:

1. A Page about themselves,
2. A site about a there hobbies,
3. An event in the area
4. A Page to display all of the different things they have done in HTML
5. A small blog
6. A page with links to all of there favorite things online
7. Whatever you can think of, maybe even ask the kids and see what they would like.

If your feeling really enthusiastic you could add a mobile css file or something outrageous like that!
